Who said all things are possible to him who neleweth?--Mark 29:2.

PROTECTING AMERICA'S BULWARK.

THE republican tariff poticy, affording profaction to American industry, labor, manufacturing and production of all kimis, is chief among the reasons why this republic has grown so great and strong in so show a time, why here prosperity is more widely and equitably. diffused than in any other country in the history of the world, why the American standard of wages is immeasurably higher than any other industrial eystem on the face of the earth has ever contemplated,

The republican theory of protecting the American market for Americans explains why more than three-fourths of the motor vehicle output of the world is absorbed in the American market, why wage carners in unlimited numbers ride in motor cars in America, own their homes, dress like the wesithy and idle classes of the world, have their hours for pleasure and take pride in their vocations.

All of this is so well known that it is amazing that any man or group of men would in this day attempt to make political capital of a republican tariff act, especially so when the record, easily available, demonstrates that every prominent critic of the recent republican tariff act, which is restoring employment and prosperity to the nation, was himself a zealous protectionist on those commodities which his own district or state produces, and that every democratic tariff act in the history of the party has been a tragic failure,

THE SIMPLE TRUTH OF THE MATTER IS, THERE IS NOT A GENUINE PREE TRADER LEFT IN THE UNITED STATES, AND THERE IS NOT A MEMBER OF CONGRESS WEAR-ING THE LABEL OF THE DEMOCRATIC PARTY BUT IS PROVEN TO BE A PROTEC-TIONIST BY HIS VOTING RECORD.

How amazing then, for E. B. Howard, demotrict, to go about preaching absurdities concerning the tariff act of 1922! And to hear his chief editorial supporter, the organ of the victous anti-democratic reconstruction league, indulging in the fantastical assertion that the new tariff law constitutes a billion dollar bonus for the special interests!

What does either of them know of the immuiable laws of political economy? This at least, that both are protectionists at heart, for both have advocated in season and out of season a tariff on petroleum, the chief product of their own district. Yet if the protection theory is unsound at all it is unsound in principle, and a tariff on petroleum would be as manifestly improper as a tariff on soy hears, cotton, pe or any other commodity.

We repeat, there is not a man in the congress, nor has there been one for years, but was or is a protectionist of the most pronounced

THE CHIEF DIFFERENCE BETWEEN DEMOCRATS AND REPUBLICANS ON THIS TARIFF MATTER IS THAT THE DEMOCRATS ARE INSINCERE AND UN-FAIR, STANDING FOR PROTECTION ONLY ON THOSE COMMODITIES WHICH DIRECTLY AFFECT THEIR DISTRICTS OR STATES, WHILE THE REPUBLICAN PARTY, NATIONAL AT ALL TIMES, SEC-TIONAL NEVER, STANDS FOR PROTEC-TION TO EVERY SECTION AND EVERY INTEREST OF EVERY SECTION WHICH CAN QUALIFY FOR SUCH BENEFIT.

Till democratic members of both house and ment's niem that different of demorracy, the "solid south" voted for high protective duties on every commodity produced in the south, but made flamboyant speeches of vast insincerity against a protective rate being given the wheat raisers, the miners and the manufacturers of the lake regions and the Atlantic sea-

These men charged the republicans with being special-interest servators because they induted on these large employers of labor being afforded protection against European manufacturers and European pauper labor precisely as they had granted the southern growers protection against outside competition for their products,

Let candld men and women with even a spark of nationalism say which is the special-interest servator, the republican or the democratic party!

Candidate Haward is making his campaign almost exclusively an assault on the fariff law which has ushered in general prosperity and is setting the wheels of industry spinning, because he "believes"-we say "believes" because he shows himself crassly ignorant of the underlying principles of the tariff question and has no conception whatever of a broad nationalism which sees the whole republic and seeks its benefit-it may result in some necessities of life appreciating in price.

Yet he has voted for protection on the com-

roadilles and products of his own district! Who is the special-horsest advocate; Howard asking commething for himself he is unwilling to give to the producers of other communities in his own country, or Chandler standing squarely on the remolican principle of preserving the American market for Americans regardless of Tweetless and sections?

What honest man will demand for himself or his own section an advantage gained at the experson of some other man or section? This shows the instanced we cross ignorance of these pollporrot anti-protectionists who are scaking to dimb line office by repeating the words put into their months by the senators and congressmen who voted for protection to the executive acception, and committee room, traded the name as other representatives in order to get their own districts appeared, then look the floor of the senate or the house and indulged in longwinded distribys against the I monstrous tariff

The World frankly and sinceraly advises the cotten of this district to leave Mr. Howard at home. He ornaments private life. But in his insincers and afterly dishonest position on the tartif question a question of deep, vital and abiding concern to every sitizen of Oklahomahe has moralfested like unfilment to represent this

The First district did want a tariff on petro learn, but R never asked that R be given protection for its chief product and that other ecctions of the republic be denied such benefit. And a vast majorny of the First district, both industrice and citizens, have siready experienced the beneficent effects of the turiff set of 1922 and realize that it indeed does naker in that normaley needed, promised and devoutly hoped for.

The World believes in the republican theory of protection as it does to the American theory of protecting the fireside, is the local policy of trading with home morehants. No man who knows his best interests, he he farmer, laborer. merchant, banker, oil man or what not, will run from this faciff challenge for a minute. When they hear a demagogue berating the new tariff act, let them call for the record and discover that the man, if he was a member of congress, himself voted for protection for those commodities in which his own people were intorested or if he has not sought such protection through his congressmen. Howard's ignorant, Indinegre attack on the tariff ought to mean thousands of votes for his adversary.

WHY NOT FACE THE RECORD?

At Lawton Saturday, J. C. Walton spoke for an hour in defense of his administration as mayor of Oklahoma City, attempting to offeet the charge of scandalous profilgacy brought against him by the Record by stating that more policemen and higher salaries were necessary in order to preserve the peace and protect prop-

Which rasies the question, has Oklahoma City been a better governed city under Walton than it was under the economical administration of Ed Overholser? The official record is not available, but it is not necessary. Anyway, there are thousands of Oklahuma City citizens who can pass judgment on the details.

However, it has been only a few months since the citizens of Oklahoma City were in the hands of outlawry and lawlessness of the most vicious kind. Men were openly malfreated on the street, property was destroyed and murder was committed with complacency. So completely was the city without protection or even a semblance of orderly government that mass meetings were held, begging the mayor to execute his eath of office and petitioning the governor to take charge of the elitation in case the city authorities longer refused to act.

It will be remembered -or the record is easfly available to prove-that the governor issued a stinging statement wherein he called on the local authorities to demonstrate their willingness and ability to enforce the law on pain of having martial law proclaimed and the city placed in charge of the military should they fall to do so.

Does the reconstruction candidate think the people have so soon and easily forgotten?

Whatever one may think of Campbell Russell, his action in holdly taking the stump against the reconstruction candidate who poses as a democrat leaves no question concerning the man's courage and his disincilnation to fight other than onen war.

It looks as it both England and Turkey had reached the conclusion they had rather talk than fight. Now if the conversation is pitched in the right tone and confined to the proper subjects, the peace dove may be induced to light in the near east.

Just Folks

THE MOON

Last night one haby saw the moen.
A wondrous ball of yellow gold,
It seemed to her a toy belicon
Which she had strength erough to held,
And so she reached her arms above
As hables ares long have done.
She wanted it to keep and love—
The moon's great magic had begun.

Here is the monarch of our dreams,

From innoceses to worldly wise.
This gentle, peaceful, planet seems.
To hire us ever to the skies.
The moving tide of mon he draws.
In solice of all the battles fought.
The selfish striving for a cause.
To lotty dreams and nobler thought.

He seems to bold a regal sway.

Over the hearts and minds of all.

The scholar, worn and bowed and gray.

Turos when the shades of evening fall

And in that glorious flood of light.

Sees what his lips can never teach.

Visions of beauty and of right

Which he has hope some day to reach.

The moon is father of our dreams,
He holds us all within his sway.
Into our clouded minds he streams
To wash the doubts and fear away;
And like the babe who reaches out
Small hands to grasp this treasure great,
So grown-ups everywhere about
Look to the moon and dream, and wait,

Oklahoma Outbursts

Old Bill Dingley, deposed president of the Sit and Swar club, may it is his experience that most man are brave until there is need to show it.

if the injunctions refusing both candidates for the senate a place on the printed ballot stand up. Texas voters will have to be hand;

If Iowa republicans can bolt their candidate for the senate because of his radicalism, Cala-lusina democrats should not feel themselves party bound.

Jerry Hand of Okumben justifies his new fall regulin in this way: "Noundrys, just because a man wents a checked suit, it's no sign he's a professional gambler."

One of the interesting subjects discussed at the Y. W. C. A, committee meeting and junctions this week, and which probably held the closest attention, was "how to reduce." Governor Robertson will probable agree with be part of Justice Milite's dissenting opinion thick may that the evidence was concludes that

Tillio Clinger tells the Dallas News that the reason she is quitting her present bourding house is because the landfully said she wanted the room for a gostionan and his wife who obfected to a third party.

The girl on South Main says that Isadora Dun can, the wild woman from Hussia who has bust been wafted by the ocean waves to the shores of this country, has nothing on her when it comes to those southal dancing steps.

That because hill which he initiated is cumulative evidence of Mayer Walton's insincerity. He probably flaired that the people would vote it down because of the provisions for raising the money but that his fatherhood of the bill would gather in some votes for himself.

Barometer of Public Opinion

Tolerance Needed.

Tolerance Needed.

Editor World: Regarding the discussions at present appearing in your Parometer of Public Opinion column. I never heard an intelligent Protestant berate the Catholic faith, and I have never heard any but an ignorant Catholic expound a hymn of hate for the Protestant—the whole thing is the result of not enough tolerance and education on both sides.

My father is a Thirty-second degree Mason and my mother a very devout Catholic. I lived at home until I was 25 years of age, and I never remember of houring a word against either side, from either my mother's close friends or my father's. One of my earliest remembrances is of my mother's rosary always under her pliciow in the morning, where she had pushed it as ehe fell saleen, and many times my father's Masonid ritual on the floor beside his bed, where he had been studying for some office in the Knights Templar lodge.

On Easter mornings, in the town I lived in, the Mason's siways had services of an elaborate nature, followed by a dinner served by the Eastern Stars. My mother always went to early mass in her own church and then to the Masonic services with dad and myself, and although he was a Mason and I was an Eastern Stars in the rown of the contrast of the father and everyone in both lodges knew the reason she didn't belong, she was treated with the utmost courtsey on every occasion.

Telerance, brothers and sisters, tolerance and education is what you need.

Yours very truly, Tulsa, Sept. 21. PEGGY NORTH.

In Defense of Armenia,

Edition World: It was with regret that I read in your morning paper of the twenty-first, inst., uticle written by Harry B. Harter. The gist of which was the massacring Turks by Armenans. Mr. Harter's arricle is without foundation, and I am sure that Mr. Harter is not familiar with the geographical and political situation of Takin substantials.

miliar with the geographical and political situa-tion of Baku, otherwise he could not have written an article so misleading.

Before the revolution Baku had a popula-tion of Bey, 800, 80 per cent of which were Per-sians, and 20 per cent consisting of Armenians, Russians and others.

Baku is surrounded by Persian's villages, and without a slugge Armenian living near. When

Haku is surrounded by Persian's villages, and without a single Armenian living near. When the busheviki established government in Baku and other Angeleidian republice, all Armenians poor and rich, escaped from Baku. During the past two years there have been from five to len thousand Armenians who could not or had no stave. Maybe you'll get a fine job of the past the prevents them from leaving the country, as they are needed in the oil industry, being fast that he American preves and relief workers have been in communication with Baku and in the particular industry. Being and has not reported a single case where Armenians killed Moslems.

It is a shanne to give wrong information like the above to the heavespapers about the nation which has suffered more than any other country.

A STENOGRAPHER'S ROMANCE

By Jane Phelps,

CHAPTER V.

The Promise of Brighter Pays.
After a good hot luncheon Neille
felt herself again and laughinsly insisted upon helping clear away.
"Do you know, Cora—I may call
you that, mayn't I, even if you are
older, and smarter than I am?" At
Cora's smiling permission she went
on: "I am so discouraged that if I
wouldn't rather be dead than there,
I'd take the next train back to Hudsen Corners. Guess I'd have to foot
it though, and my feet are so lame
now I can hardly stand on them."
With a laugh she turned out the
contents of her shabby purse—a subway ticket, two nickels, a couple of
hairpins and a plese of chewing
gum. "The gum sert of stopped
that granwing feeling in my tummy,"
she explained.
"Perhans I can help a little, al-

she explained.

"Perhaps I can help a little, although one poor girl can't do much to help another poor girl." Cera answered, her forehead puckered. She was desperately trying to think of some way to help Nells.

"Honest Cera, I'd go back to hashslinging in Miss Carter's boarding house for the chance of getting a square meal, though they wasn't so awful equare there lots of times; not awful equare there lots of times; not for me. This Big Town is something flerce when a girl's hungry, I guess "Hurrah! Three cheers for the for me. This Big Town is something flerce when a girl's hungry, I guess if it hadn't been for coming to you today I'd been in the morgas by morning. I wonder would the papers have printed 'Neille Riley Starved to Death?" Do you suppose they would?"

"Poor little thing," she murmired as the more mured as the murmined to the state of the more little thing."

"Don't, Nellie! Don't talk like landlady.

Armenia has the sympathy of America and American relief workers in Armenia did and are doing their best to save hundreds of thouseands of Armenians and the Armenians appreciate this.

America knows very well what Armenia has mother married the second time.

America knows very well what Armenia has suffered during the war and that they were for the allies and in reward for their sacrifices they have getten nothing and the Turks continue to massacre them without any of the great nations.

Armenians won from the great war only entities and in the trurks are influenced would not be seen where for kids that never would you have getten nothing and the Turks continue to massacre them without any of the great nations.
